

Quantum Energy Flask

Quantum Energy Flask/ Water Energy Flask (VICE -VERSA) is used to make the drinking Water, Juices, Herb Teas, Natural Homeopathic Remedies, Oils, and Creams alkaline, mineralized, purified and energized. Generally, the water we drink is acidic and is of macro molecule group. As we get old, our immunity to common diseases is reduced. The water filled in them facilitates the absorption of nutrients in the body as well as assists in the detoxification process.

The Biomagnets build in this Flask are made from Pearl calcium ion and natural non-Inert material which radiates infra-red ray and negative ions in water releasing mineral element such as Ca, Mg, K and Na, changing the common purified water into nanometer activated water. Nano activated water is alkaline in nature and has strong penetrability and solubility with negative potential. The nano breaks down water molecule into the smallest possible size so that they are more easily absorbed by the body. We manufacture and export a huge range of Scalar Energy Flask and Water Energy Flask (VICE -VERSA) in India.

This flask is made from natural material and has a lifetime guaranty to never lose its mineral properties. The inside of this flask is non-toxic, hypoallergenic, non-inert and natural mineral material. The high grade mineral composition radiates negative ions in water, carrying a weak electric current to adjust the ion balance of the inner body, which convert free radicals in the body to ordinary oxygen, remove toxics, preserve beauty, enhance the immune competence defer aging and improve the digestive system. This promotes the cell's self-renewal function, restraining the body's oxygenation and aging.

Feature Specifications:

- 2. Reducing blood lipid, Lower blood pressure**
- 3. Improving regulation of gastrointestinal function**
- 4. Promoting human metabolism, and enhance human immunity.**

5. High dissolving power of energy water binds to the waste toxins in our body and flushes them out through urination, perspiration, and others.

Apply Instructions:

1. Clean the cup with hot water before you use it, in order to active the Nano particle. (please use the hot water with the temperature above 90 degrees, wait until the hot water becomes cool, then repeat to wash it

2. Pour in the water, and wait for about 10-15 minutes.

3. Enjoy your energized mineral water.

User Guide :

Pour water into the cup for 15 minutes. The water quality will change into water of macromolecule group and active energy which can help to activate human cells. Drinking a great deal of such water can improve metabolic ability, active human cells; It brings health and longevity to consumers.
